

January Take-Home Project

SCIENCE FAIR

WHAT IS IT?

Students will conduct a science experiment and create a display to showcase their results.

WHAT DO YOU NEED TO DO?

1. Select a research question you want to investigate using the scientific method and get the question approved by the teacher.
2. Conduct the experiment, following all of the steps of the scientific method.
3. Display your results, along with pictures or drawings on a tri-fold science board or poster board. All boards should include: title, research question, hypothesis, materials, procedure, results, and conclusion.

WHAT IS BEING GRADED?

1. All parts of the experiment complete
2. All parts of the experiment represented on display board

WHAT TYPE OF PROJECT IS IT?

-Independent
